Company Brands

Product Brands

Product Range

- Bore: 25 mm to 500 mm
- Stroke: Up to 10,000 mm
- Working Pressure: Up to 400 bar

- Tonnage: Up to 100 T
- Application: Off Highway Trucks, Gas Hydraulic
- System for Articulated Haulers

Product Range

TELESCOPIC CYLINDER / KITS FOR TIPPERS

- Front End Tipping: Up to 6 stages
- Under Body Tipping: 2 – 11 stages
- Application Tonnage: Up to 90 T
- Mounting Types: Eye type, Cover tube, Trunnion type
- Accessories for Kits: Pumps, Valves, Tanks, Hoses

INDUSTRIAL and SPECIAL APPLICATIONS

- Custom designed Hydraulic Cylinders and Systems
- Bore ID: 50-500 mm
- Rod OD: 30-250 mm
- Stroke: 500-8000 mm
- Operating pressure: Up to 450 bar

Hydraulics for Every Application

MINING and SPECIAL APPLICATIONS

FORESTRY

- Backhoe Loader
- Dozer
- Excavator (Mini, Midi, Large)
- Motor Grader
- Wheel Loader

- Aerial Work Platform
- Container Handler
- Forklifts
- Hook Lifts
- Loader Cranes
- Tail Lifts
- Tele Handlers
- Turf Maintenance
- Reach Stacker

- Cotton Picker
- Harvester Combines
- Planter
- Sprayer
- Sugarcane Transporter
- Tractor Steering and Attachments

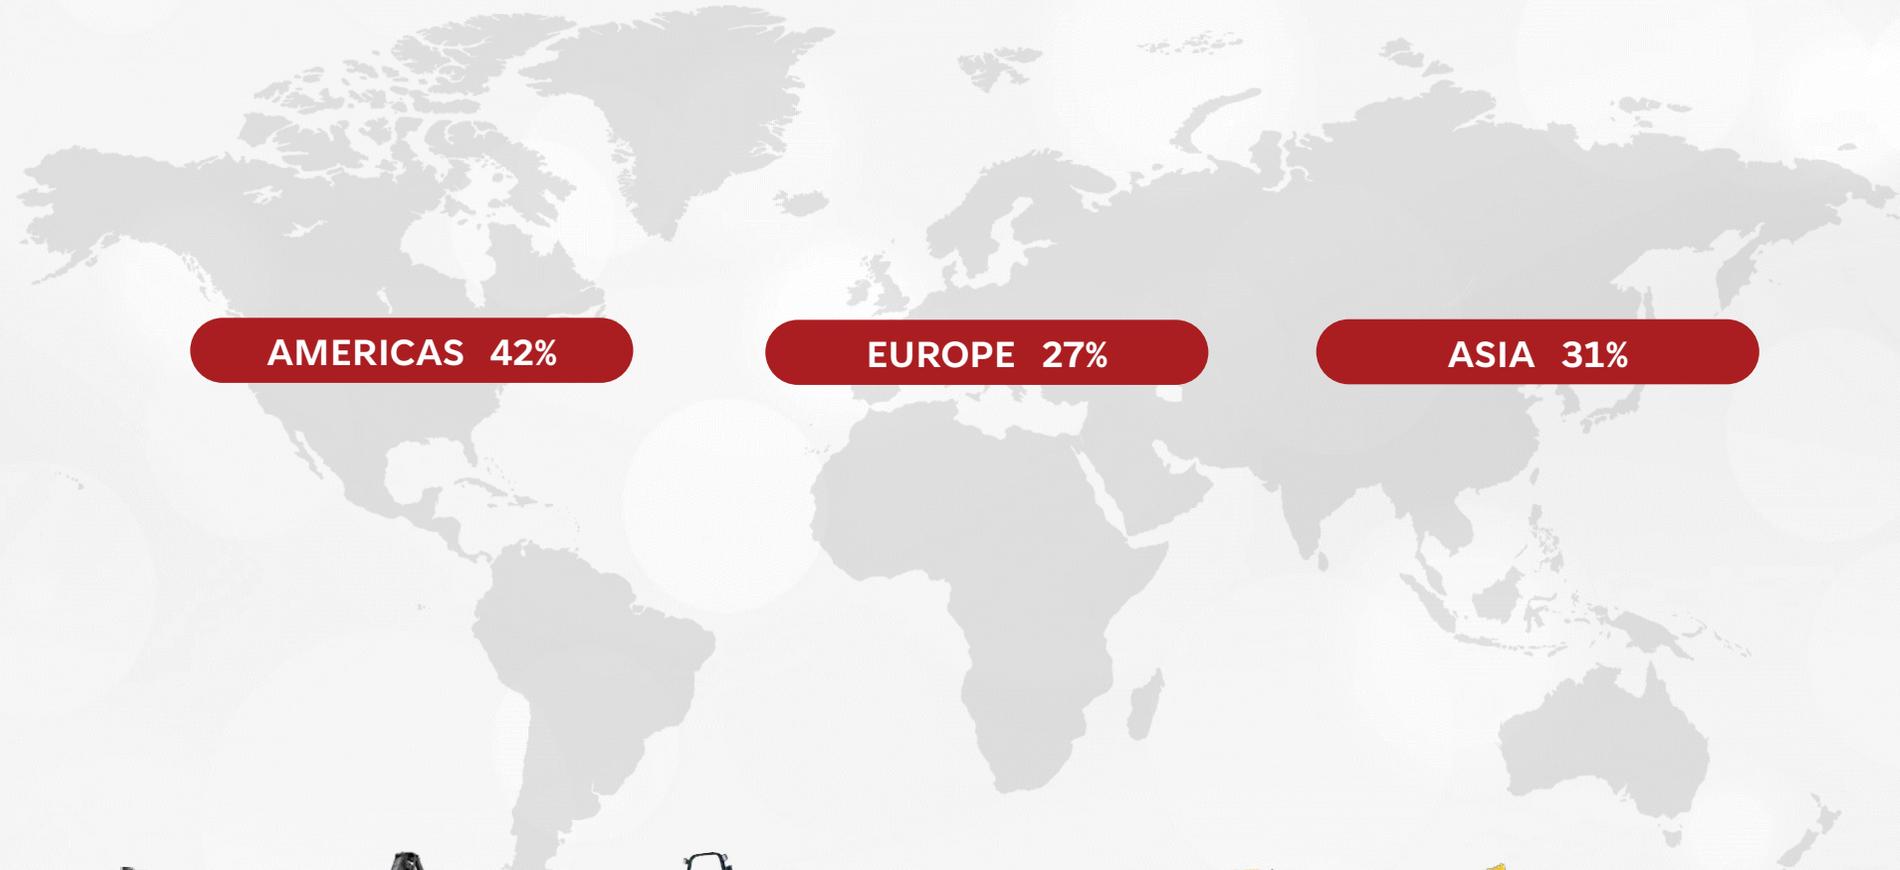

- Car Carrier
- Front End and Under Body for Tippers and Trailers
- Refuse Trucks
- Truck Steering
- 3 Way Tipping System
- Snowplows
- Car Carrier
- Roll on and Roll off

- Dumper
- Hydraulic Gas Intensifier
- Surface Drill Rigs
- Underground Haulers and Loaders
- Windmills
- Defense
- Remanufacturing
- Marine
- Mine Truck

- Forwarders
- Grapples
- Harvesters
- Harvesting Heads

Design Engineering

70+
Engineers

15000+
Successful
designs

1000
Diverse
applications

- Design processes driven by Six Sigma methodologies focused on
 - Reliability
 - Manufacturability
 - Sustainability
 - Design to cost
- Centers of Excellence in Asia, Europe & Americas
- Optimized by analytical and simulation tools like Finite Element Analysis (FEA) using Ansys, Creo Simulate etc.
- Supported by the latest 3D modelling, design and product management tools such as PTC Creo, Windchill PDM Link etc.
- Test rigs to determine Functionality, Reliability and Endurance
 - Pulse testing | Back-to-back testing | Bell crank | Steering simulation
 - Forklift test simulation | High temperature cycling

Manufacturing

Lean and
Flexible
Systems

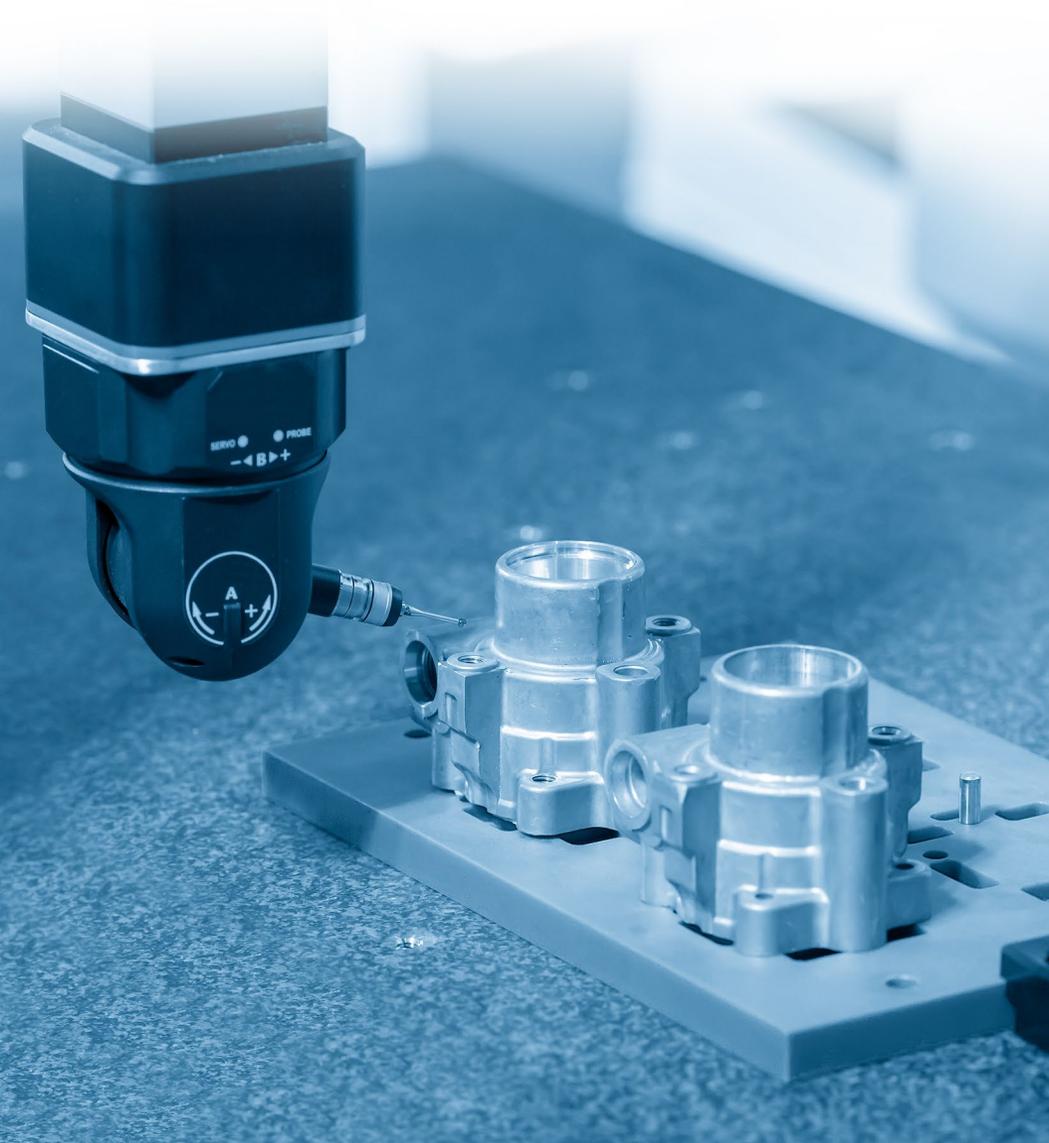

Mechanized
assembly

Automated
testing

- Continuing investments in world class facilities, latest technologies and equipment
- Built-in product quality & reliability through robust design and manufacturing processes
- Lean and flexible manufacturing systems deployed with robotic welding, automated washing stations, mechanized assembly and testing in a controlled environment
- Quality assured through process controls & mistake-proofing across the value stream
- Reduction of environmental impact and promotion of sustainable manufacturing practices

Quality

ISO
9001

IATF
16949

ISO
14001

- Two integral dimensions of our quality
 - Consistency
 - Continuous Improvement
- Plants backed by sophisticated technology and manufacturing know-how. Robust processes for supplier selection and quality management
- Corrosion resistance: Standard: 100 hrs. – Rating 10
Component cleanliness up to NAS level 7
- Superior rating to meet specific customer requirements through chrome plating process

Global Customer Base

Transforming Lives Through Engineering

wipro aerospace

Dedicated manufacturing facilities for Actuators, Aero structures, components and assemblies

Facilities and supply chain partners certified by various global players - Boeing, Lockheed Martin, Safran, Collins Aerospace, Liebherr and Heroux Devtek

Long term agreements in place with leading OEMs - Boeing, Lockheed Martin, Northrop Grumman, IAI and Global Tier-1 Suppliers for development and manufacture of precision structural parts, landing gear and power door opening systems actuators

Wipro Aerospace Snapshot

CAPABILITIES

- Actuator parts:
 - diameter up to 250 mm
 - length up to 1500 mm
- Assembly and testing of actuators
- CNC milling of various alloys up to 6500 mm
- Sheet metal fabrication including hot forming
- Mechanical assembly

MANUFACTURING INFRASTRUCTURE

- Mill turn / turn mill centres
- Deep hole drilling machine
- Vertical honing machine
- Thread rolling
- Gantry type machining centres
- FMS machining centres
- Ultrasonic washing and vapor degreasing
- CNC bending machines
- Assembly and testing

SPECIAL PROCESSES

- NDT facilities (FPI / MPI)
- Stress relieving and hardness checking
- Painting
- Heat treatment
- Shot peening
- Anodizing
- Etching

Wipro Aerospace Snapshot

PRODUCT RANGE

- Actuators - Cylinders & Pistons
- Airframe Assemblies | Sheet Metal parts
- Manifold / Valve Blocks | Ti Hot formed parts
- Complex Turn mill components | Liquid Reservoirs

Our competence

Industrial Water Solutions for Every Application

WATER TREATMENT

- Water pre-treatment
- Boiler feed water
- Drinking water treatment plant
- Softening system
- Demineralisation plant
- Reverse Osmosis
- Desalination
- Ultrapure water
- Cooling tower make-up
- Condensate polishing unit

WASTEWATER TREATMENT

- Industrial effluent treatment
- Sewage treatment plant (STP)
- Anaerobic reactor
- Activated sludge process (ASP)
- Moving bed bioreactor (MBBR)
- Membrane bioreactor (MBR)

WASTEWATER RECYCLING/ZERO LIQUID DISCHARGE

- Membrane technology
- Evaporators

O&M SERVICES

- 24x7 O&M for WTP | STP | ETP | ZLD
- Single window supply - spares, chemicals & consumables
- Revamping & Retrofitting

Standard Packages

Pre-engineered, factory assembled and tested

- Filters
- Ultra Filtration Skids
- Reverse Osmosis (RO) Systems
- MBBR Sewage Treatment Plants
- Standard Sewage Treatment Plants

Make Every Drop Count

Understand business requirements and provide end-to-end custom designed integrated plants for diverse industries

Deploy right-fit technology and solutions that meet your business and operating needs

Enhanced efficiencies with lower operating costs and Reduced Total Cost of Ownership (TCO)

Quality product delivery and ethical business practices

Transforming Lives Through Engineering

wipro: research

Wipro Research Structure

Three-pronged approach

Five focus areas of Wipro Research:

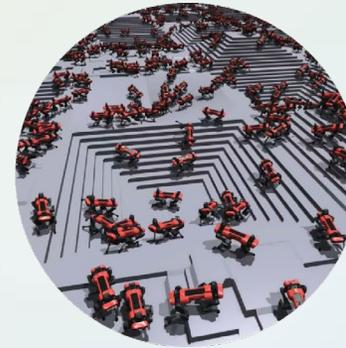

Motion components and autonomous control

Electronics, network and communication

Materials science

Computer Vision and Software 2.0

Manufacturing processes

A Milestone Collaboration

wipro: research

Pilani

Goa

Hyderabad

Dubai

Joint Venture

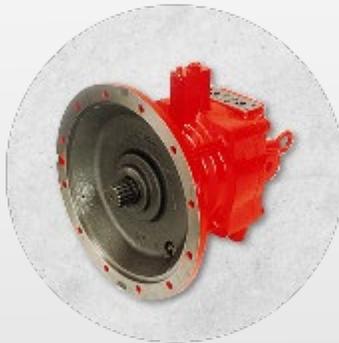

Wipro Kawasaki Joint Venture

Wipro Kawasaki Precision Machinery Private Limited is a joint venture between Kawasaki Precision Machinery Company and Wipro Infrastructure Engineering to manufacture . . .

- **Hydraulic pumps**
for 7 – 36 tons excavators

- **Swing Motors**
for 20 tons excavators

Creating an Equitable and Sustainable Society for All.

We believe business fuels our purpose, and purpose fuels our business.

Social Responsibility

Education

Work on issues of deep systemic reform in India's education ecosystem. Over 54,000 children reached through First Book Partnership.

Community Care

Work on long-term disaster rehabilitation and issues of health, children with disabilities, education, and the environment.

Advocacy & Public Policy

Shape policies by engaging with government, NGOs, and industry networks.

Business Responsibility

Ecological Sustainability

Minimize Wipro's internal footprint re: energy, water, and waste. Wipro has prevented 425,000 tons of CO₂ from entering the atmosphere over the past five years.

Workplace Sustainability

Promote employee diversity, empowerment, and continuous learning.

Customer Stewardship

Provide products and solutions that enable customers to become greener.

Supplier Sustainability

Collaborate with suppliers to help them become more sustainable.

Our Values & Culture

Spirit of Wipro

Be passionate about clients' success

Treat each person with respect

Be global and responsible

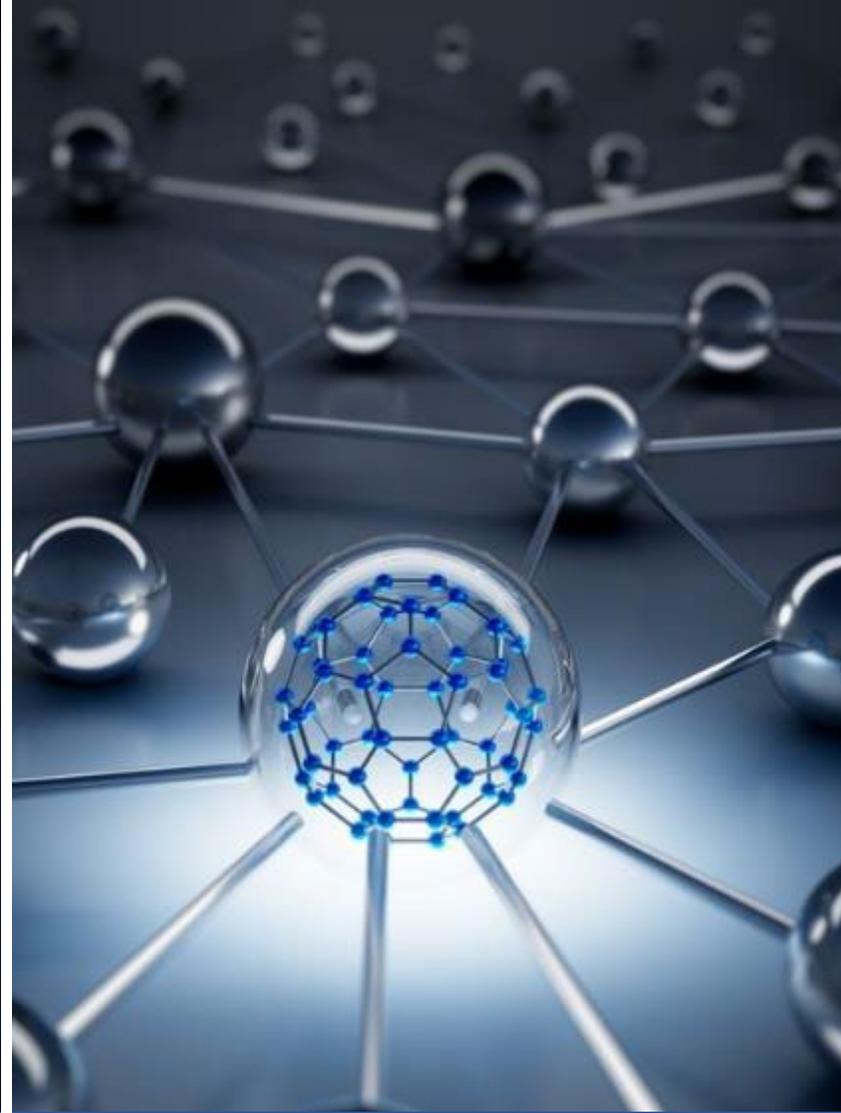

Unyielding integrity in everything we do

Strategy and Goals

INNOVATION

Leadership in engineering,
technology and quality

BUSINESS EXCELLENCE

Partnering with customers
across the globe

SCALABILITY

Leverage a global delivery
and engineering model

Thank You!
